Permaculture Training Center

- Oversee Bobby who is in charge of the following relating to the Perm Center.
- Continue developing so that the center will be resource center for community development as well as a training center for holistic training (DMM training, etc as well)

- soil rebuilding – teach about and create a supply of compost with demonstration test sites
- create a nursery to provide plants for villages that we are working with and plants and trees for sale to help make the center financially viable.
- plant trees and living fence on back 6 acres to make it possible to add goats and provide food for the animals.
- train others on income generating businesses like; mushroom growing and selling; aquaponics
- Install, test and demonstrate the benefits to drip irrigation.
- Continue developing so that the center will provide sustainable food
- Continue working to make the Permaculture Training Center financially sustainable
- Discover clean water solutions for Bilisikura and Perm Center that will also help villages that we work with or provide open doors to new villages. This involves drilling wells, repairing pumps and installing water purification systems in villages to continue developing relationships.
